PROFILE

Frontend Lead with 4 years of experience in React, Next.js, and Node.js. Skilled in building scalable dashboards, CI/CD (GitHub Actions), and cross-platform apps with React Native.

EDUCATION

Air University — Islamabad, Pakistan
Bachelor of Science in Computer Science — *Sept. 2017 – May 2021*

EXPERIENCE

Frontend Lead (React, Node.js) — Sept 2023 – Present
Senate of Pakistan (AI Professionals) — *Parliament House, Islamabad*
- Led frontend development using **React**, enhancing multiple modules of the **Digital Automation System** including E-Filing, Committee Management, and Reporting, resulting in a **20% boost in efficiency**.
- Built and optimized complex UIs and dashboards; integrated REST APIs and contributed to backend using **Node.js** where needed.
- Played a key role in delivering scalable admin panels and mentoring junior developers in frontend best practices.

Web/Mobile Developer (React, React Native) — Aug 2021 – Sept 2023
Axie Consulting — *Park Avenue, F11 Markaz, Islamabad*
- Built and maintained scalable web and mobile applications using **React** and **React Native**, ensuring **99% app uptime** and improved user experience.
- Developed reusable UI components, integrated REST APIs, and implemented features with responsive and cross-platform consistency.
- Boosted user engagement by **25%** through performance optimization and user-centric design.

Mobile Developer — Dec 2022 – Aug 2023
Elite IT Team Ltd. — *UK Based (Remote)*
- Designed and developed hybrid mobile apps with a focus on **UI performance**, reducing load times by **20%** and improving app ratings.
- Worked with international teams to implement core features, ensuring **100% on-time project delivery**.
- Reduced user-reported bugs by **40%** through continuous testing, feedback integration, and iteration.

PROJECTS

Digital Automation System | *React, Node.js, MySQL, PostgreSQL* — Sept 2023 – Present
- Led frontend development for a digital workflow system at Senate, enhancing E-Filing, Committee Management, HR, Leave, and Visitor modules using **React**.
- Collaborated on backend tasks using **Node.js** and optimized cross-module performance and data handling.

MorningSelf (Mobile App) | *React Native, Quirrel, SparkPost, Dropbox SDK* — Aug 2022 – Present
- Developed a productivity mobile app with structured daily routines using **React Native**.
- Implemented scheduled email workflows using **Quirrel** and **SparkPost**.
- Integrated cloud storage with **Dropbox SDK** for user check-in data.

SCO (Web Application) | *React, Redux, Telecom APIs* — Jan 2023 – Dec 2023
- Built a web interface for telecom customers enabling balance checks, top-ups, and promo features.
- Integrated real-time updates and improved UX using **Redux** and performance tuning.
